

THE PERFECT CHILD

With our help!

Treat diseases before they even occur!

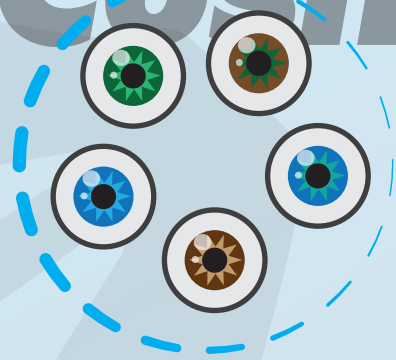

Provided *free of charge* to give your child the best fighting chance in the world.

Pioneered by progress in Preimplantation Genetic Diagnosis (PGD), and completely risk-free!

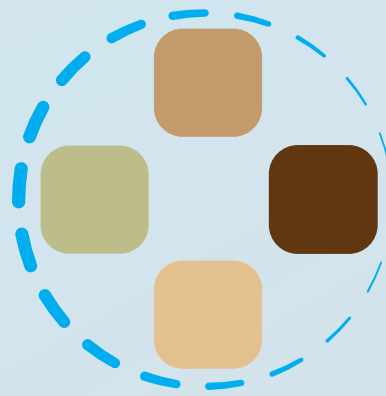

Reduce the chances for heart disease, asthma, cancer and many more debilitating conditions!

Cosmetic

For a small additional cost, you can decide your child's eye color, hair, and skin tone!

Choose a skin tone that will best suit your locale! Blue eyes too sensitive? Go with brown instead!

Enhancements

Want your child to have even more of a competitive edge? For an additional cost, you can guarantee their success in any academic or athletic pursuit. The next generation of doctors, astronauts or olympic athletes can start with your child!

The Technology

Using our patented method of PGD, we create multiple embryonic candidates.

Each one is thoroughly tested, as soon as we find a match to your specific

request, it will be implanted and will grow like any other in vitro fertilization!
